**सर्व विषय ऐकाच ठिकाणी**

Prof. R. K. Upadhye

### *From Director's Desk*

“ Success Seldom goes to timid, it goes to those who Dare & Act

### **Dear Student/ Parents,**

A good student can become a good examine ! How to make him a good examine ? Being in education since 1985, we have understood this very concept. Students keep on studying seriously throughout the year and get ready for the examinations i.e for the theory and entrance examinations like JEE- Mains, IIT-JEE, Biotechnology, NEET etc. Thus it becomes very necessary to make them study, conduct large number of tests, evaluate them, discuss the paper immediately, let students understand their shortcoming / faults, clear the concepts, repeat the tests, build the confidence.

The complete concept of our education institute is too practice discipline, determination and devotion in process of achieving student's goal. With over 35 years of experience leading to factors like - the improved facilities for learning, the revised methodologies for pupil services, research and change respective of state and national educational spectrum and most importantly our work ethics sets us apart in such education sector. We strive and keep up to do so keeping in my mind that our gems-our students- are moulded for the betterment of their own future. Working towards excellence and success is the principle we work with. We believe in teaching from the book as well as from our heart.

Prof. Upadhye R.K.

# Welcome to Upadhye Classes at Nashik

**UPADHYE CLASSES** stand at top in educational institutes especially for engineering and medical entrance examinations. It is coaching unit for students of XI and XII who aim to pursue career in respective fields.

The Coaching class is serving students for over 35 years. It acts as perfect guidance centre for students aspiring medical, paramedical and engineering careers. Excellent coaching and career counseling are its strong points, it helps student to go into future with absolute confidence.
